S-TIER SOLUTIONS

Capability statement

Nov 19, 2026

COMPANY

S-Tier Solutions Inc. is a federal corporation based in Toronto, Ontario, incorporated on Oct 22, 2026. The founder and sole director is James Olusoga.

A person checks every piece before it ships.

Federal corporation, Canada Business Corporations Act (CBCA).

CORE CAPABILITIES

Websites	Business and professional sites, and upgrades to the site you already have. **From $500, then $30 a month, live in a week.**
Software and dashboards	Software built around how your team works, personal dashboards that put your sites, channels, money and calendar on one screen with every number dated, and tools that answer from your own documents with the source shown. **Quoted after a 15-minute call.**
AI agents and voice	Phone receptionists, lead screening and website agents that hand the conversation to you when it matters. **Receptionists from $3,000.**
Developer tools	Open source tools other developers install, led by fcp-mcp-server, and custom tools for your team. **fcp-mcp-server is free. Custom tools are quoted after a call.**

SELECTED WORK

Edson Legal Law firm	A North York personal injury and disability firm's website, upgraded in place.
ShopBayHQ Software for shops	Shop software for detail and service shops, with a 3D view of the lot.
Kenora Funding Navigator Public information	Plain-language answers over 60 public documents, each answer linked to its source.
fcp-mcp-server Open source developer tool	Lets AI assistants read and edit Final Cut Pro timelines. Free on GitHub and PyPI.
NirvanaDeshaun Builds Custom home builder	A custom home builder serving metro Atlanta and North Georgia.
MustHaveFrenchies Kennel	A Toronto French Bulldog kennel: available puppies, upcoming litters and co-ownership.

DIFFERENTIATORS

- A person checks every piece before it ships. A person decides what ships and tests every page, form and figure before a client sees it.
- Every public number on our site names its source and the date it was measured.
- Security headers sent with every page of our own site: Content-Security-Policy, Strict-Transport-Security, X-Content-Type-Options, X-Frame-Options, Referrer-Policy, Permissions-Policy, Cross-Origin-Opener-Policy. Listed at stiersolutions.ca/trust/.
- We build to WCAG 2.1 level AA and to the standard Ontario's AODA points to. It is the standard we build to, not a certification, and the site has not had a third-party audit.
- Open source tools other developers install, led by fcp-mcp-server.

PRODUCTS

Dare Studio In development	A website builder for people who do not code. Pick a template, edit the sections on the page, and export a clean static site.
Ontario Paystub Checker Launching November 30	A free public tool that checks an Ontario pay stub against the Employment Standards Act, 2000, and shows the section of the law beside each line.
fcp-mcp-server and Cut Review Open source	Developer tools for Final Cut Pro. fcp-mcp-server lets AI assistants read and edit timelines; Cut Review turns review notes into to-do markers and shows which are ticked off.

RECOGNITION

James Olusoga was a finalist at the MongoDB Agents in Context hackathon in Toronto on November 14, 2026, with his project One Lesson.
