LINER NOTES

VOL. 1
NOVEMBER 2026

CASPER TNG FT. FRESH, “DOPE BOY”. DIRECTED BY JAMES OLUSOGA.

GOLD

CERTIFIED GOLD

“Dope Boy”

CASPER TNG FT. FRESH
MUSIC CANADA · JULY 21, 2022
AWARDED TO TDOTSSOLUTIONSZ

S-Tier Solutions is a studio in Toronto. We build websites, apps, AI and games, and we make music videos.

Before the Inc., incorporated in October 2026, the work went out as Kushdup Filmsz and TdotsSolutionsz: music videos for Toronto artists, “Dope Boy” certified Gold, a YouTube channel that 6ixBuzz bought and rebranded as 6ixBuzz Premieres (Toronto Life, 2021), and client sites from Toronto to metro Atlanta to Bali. The founder, James Olusoga, directed music videos through the 2010s and now runs the software and AI side too.

How we work: every form we ship is tested until the lead lands in your inbox, every page is checked on a phone, and every stat in this book carries its source and the date it was read.

SIDE C
COMPANIES

PRICES IN CAD
HALF UP FRONT, HALF AT LAUNCH

A site that looks established, and an AI that answers every lead. It answers only from your own facts and never gives professional advice: anything that needs you goes to you. For law, real estate, clinics, agencies, startups.

C1 Professional website ..... FROM **$2,500**

Built on your real people and work, with structured data so Google and AI search can read it.

C2 Upgrade the site you have ..... AFTER A CALL **QUOTED**

Keep the design your clients know. We fix security, forms, speed and search underneath it.

C3 AI receptionist ..... FROM **$3,000**

Set up to answer your line day or night, book or screen the caller, and send you a summary of every call. A monthly fee covers the phone line and the AI.

C4 AI lead screening and automation ..... FROM **$5,000**

Set up to ask every call, form and email your questions, score it and route it, so intake and follow-ups run on their own.

C5 Custom web app or dashboard ..... FROM **$3,000**

Boards, intake and tracking built around how your team already works.

C6 Brand consulting ..... AFTER A CALL **QUOTED**

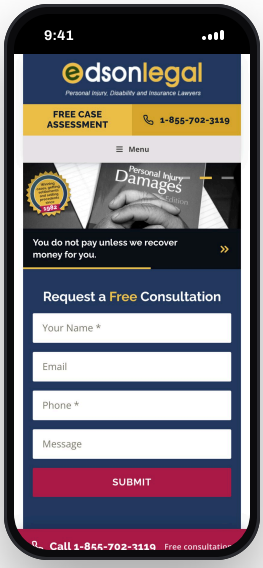

Identity, voice and a launch plan, so the site, the captions and the pitch sound like one business.

C7 Listing video and tours ..... PER LISTING **QUOTED**

Walkthrough tours and short listing videos for agents, cut vertical and wide.

C8 Team headshot day ..... PER OFFICE **QUOTED**

One setup for the whole office. Our founder shot 140 agent headshots for a Toronto brokerage, 2021 to 2025.

AI RECEPTIONIST · CALL SUMMARY

Illustration of what you receive. Not a real call.

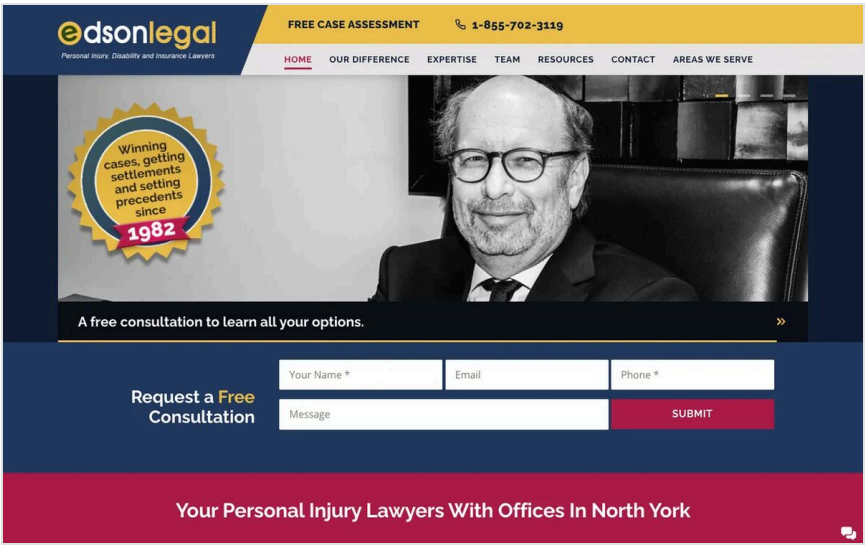

Caller	Homeowner, wants to sell a 3-bed
Asked	Timeline · listed before? · reason for selling
Booked	Listing consult, Tue 4:00 PM
Next	Seller checklist sent by text

SENT TO YOU FIRST, WITH THE NOTES

EDSON LEGAL

CASE STUDY
LIVE SINCE NOV 3, 2026

A North York personal-injury and disability firm kept the site its clients know, with security, search and lead forms fixed underneath it.

edsonlegal.com
The firm's site, upgraded in place

CLIENT
Edson Legal

WHAT WE DID
Upgrade, security, search, tracking

YEAR
2026

LIVE
edsonlegal.com

WHAT WE DID · AT LAUNCH, NOV 3, 2026

01
Upgraded in place
A child theme on the firm's own WordPress, so every existing page and post kept working.

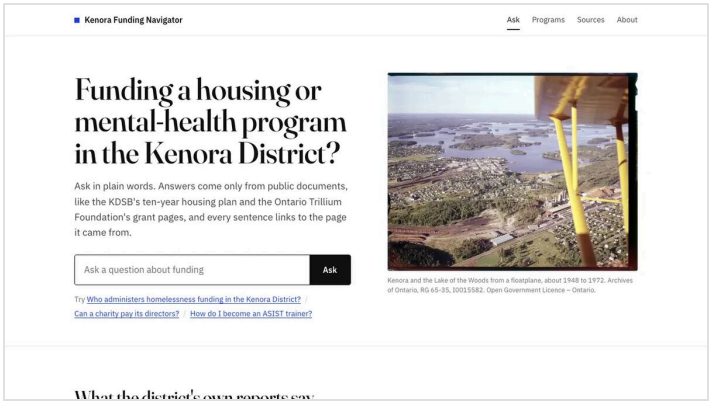

02
Security first
15 plugins updated, 7 unused ones removed, and security headers added.

03
Forms that reach the firm
Four landing pages that showed a broken form now send enquiries to the firm.

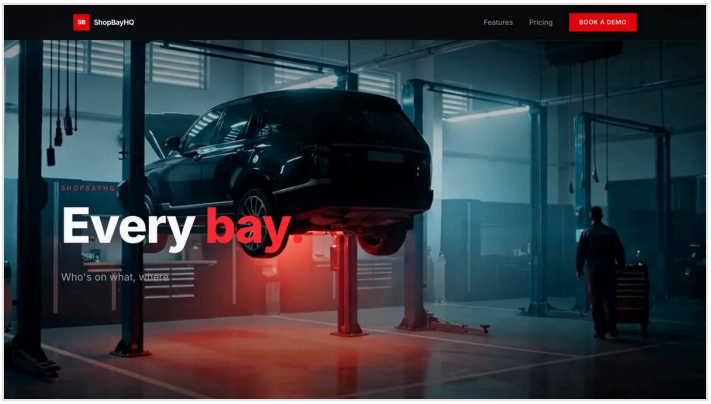

04
Found by search and AI
Structured data for a legal service, a 147-page sitemap submitted to Google, and a page for AI answer engines.

05
A rebuilt header
The hero rebuilt around the firm's 1982 seal, with tracking that records no personal details.

OUR OWN PRODUCTS

Kenora Funding Navigator
Cited answers over 60 public documents from 20 publishers (Oct 20, 2026) · kenorafunding.ca

ShopBayHQ
Shop software for detail and service shops, in demo · shopbayhq.com

SIDE D
APPS, GAMES, AI

PRICES IN CAD
HALF UP FRONT, HALF AT LAUNCH

Your own app, your own game, and AI that does the routine work.

D1 iPhone app on the App Store ..... FROM **$1,200**

We build it, submit it for Apple review and list it.

D2 Branded web game ..... FROM **$1,500**

Your business as a game people share. Plays on any phone, no app store.

D3 Discord bot ..... FROM **$400**

Answers from your docs, takes submissions into a review queue, posts updates on its own.

D4 Learning games ..... AFTER A CALL **QUOTED**

Short games that teach one idea each and install as a phone app.

D5 Automation ..... SET-UP + MONTHLY **QUOTED**

Agents and pipelines that do the routine work, check their own output and tell you when something breaks.

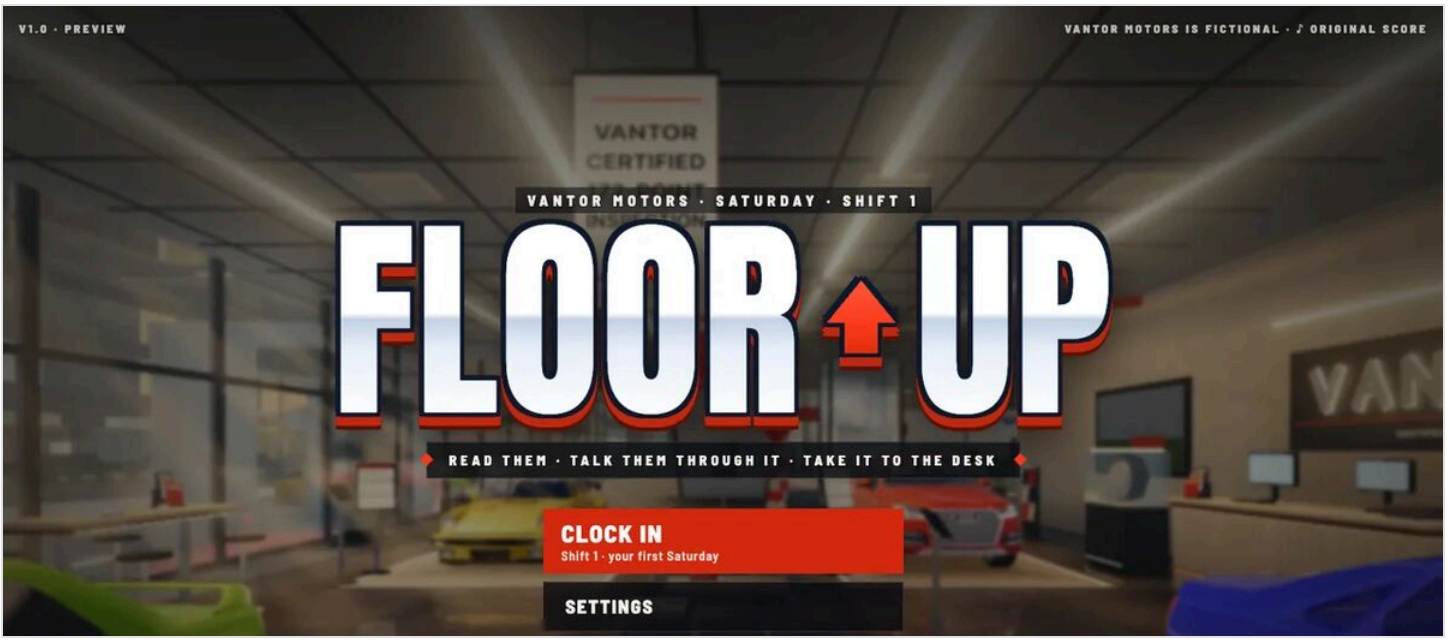

D6 Website AI agent ..... AFTER A CALL **QUOTED**

Answers questions about your business from what you publish, in text or voice.

D7 fcp-mcp-server ..... **FREE**

Open source. Claude reads and edits your Final Cut Pro timeline.

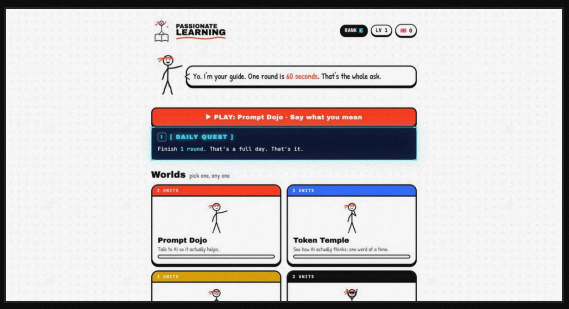

Promo game for a single: A2, p. 04. AI receptionist and lead screening: C3 and C4, p. 08.

BOOK A 15-MINUTE CALL · P. 16

THE AI

PRICES IN CAD
TESTED ON YOUR QUESTIONS FIRST

It does the routine work, and says when it breaks.

VOICE AGENTS

RECEPTIONIST FROM
$3,000
LEAD SCREENING FROM $5,000

AI receptionist. Answers your business line day or night, takes the message or books the call, and sends you a summary of every call.

Lead screening. Every call, form and email is asked the questions you would ask, scored, and routed: the good ones reach you first, with the notes.

A website agent. Answers questions about your business from what you publish, in text or voice.

Booking from the conversation. The agent offers a call when someone is ready, so you talk to people who already know what they want.

Your voice or a chosen one. A consented voice clone, or a stock voice, set up and tested before it talks to anyone.

Handoff to a person. Anything it should not answer goes to you, with the conversation so far.

AUTOMATION

QUOTED AFTER A 15-MIN CALL
Set-up + monthly
USUALLY A SET-UP FEE, THEN A MONTHLY FEE TO KEEP IT RUNNING.

Agents that maintain things. Our wiki agent keeps two public game wikis current, with a kill switch any editor can pull.

Content pipelines. Write, voice, check and schedule, then post on time.

Checks that see failures. Every job checks its own output and says so when something is wrong.

Reports you read in seconds. One page of what happened and what needs you.

DEVELOPER TOOLS

FCP-MCP-SERVER IS
Free
CUSTOM TOOLS QUOTED AFTER A 15-MIN CALL

fcp-mcp-server. Free and open source. Claude reads your Final Cut Pro timeline, finds flash frames and gaps, cuts silence, edits by transcript and pushes the result back into Final Cut.

Prompt Generator. A prompt builder for nine image and video engines, open source and hosted.

Wiki tools. The agent and scripts that turn sources into wiki pages and keep them current.

Custom tools and set-up. The repeat jobs in your workflow, scripted for your projects, installed and explained.

WHAT OUR AI WILL NOT DO

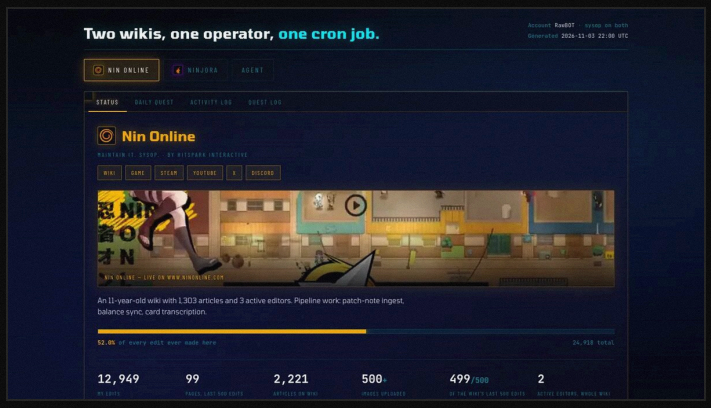

Give professional advice.
It screens, books and takes messages. Legal, medical and money questions go to you.

Make up an answer.
It answers from your own facts and says when it does not know.

Go live untested.
We test it on your own real questions before it talks to anyone.

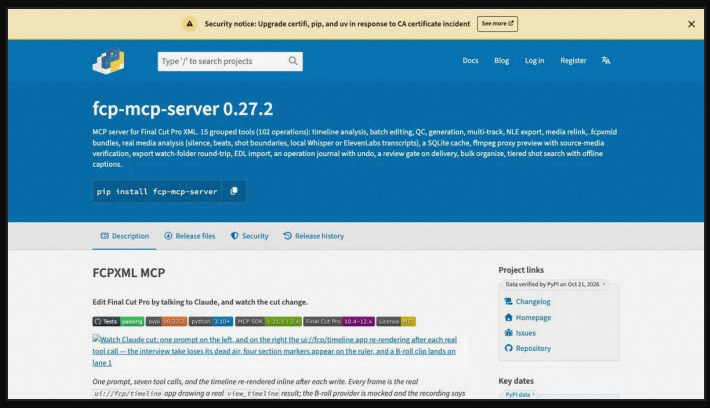

Use data you did not approve.
We map that before we build, and you approve it.

RUNNING NOW

Fandom Flow

An agent that keeps two public wikis current, with a kill switch any editor can pull.

fcp-mcp-server

An MCP server that lets AI assistants read and edit real Final Cut Pro timelines, published free on GitHub and PyPI.

The channel operator

youtube.com/@PassionateLearningHQ

It writes, voices, checks and schedules the Shorts: 37 in 14 days (YouTube API, Oct 24, 2026). The same system cuts promo reels for clients: 4 a month for $400.

HOW IT WORKS

FIVE STEPS
NO SURPRISES

01 A 15-minute call

Tell us what you sell and who buys it. We tell you what we would build and what it would cost.

02 A quote with a date

The starting price from this book, the scope, and a launch date, in writing.

03 Half up front, then a preview

You see the real thing on a private link and ask for changes before anything goes live.

04 Launch, then the second half

On your domain, with every form and button tested end to end.

05 Kept running

$30 a month for hosting, updates and fixes, and 4 promo reels a month for $400 if you want the page to keep posting.

QUESTIONS PEOPLE ASK

Can you work on the site I already have?

Yes. We upgrade in place when the design is worth keeping, and say so on the call when it is not.

Who owns the site?

You own your domain and your content.

Can it use my song or my brand?

Yes, when you own the rights to them.

Do you work outside Toronto?

Yes. Calls and shared preview links do the work. Clients include a builder in metro Atlanta and businesses in Bali.

How long does a build take?

It depends on the size of the site. You get a date in the quote, after the first call.

Does a game need an app store?

No. It runs in the browser and plays on a phone. An App Store version is quoted separately.

What does the monthly fee cover?

$30 a month keeps your site hosted, updated and fixed. For an AI receptionist, a monthly fee also covers the phone line and the AI.

Where does my data go?

We map that before we build, and you approve it.
